Legal Reserve

Allocation of net income to the legal reserve is determined by Article 193, of Law 6404/1976, and is aimed at ensuring the integrity of capital. Said legal reserve may only be used to offset losses or increase capital.

According to aforesaid Law and the provisions of subparagraph "a" of § 1st, of Article 36 of the Company's Bylaws, out of the net income for the period, 5% (five percent) will be used, before any other allocation, to make up the legal reserve, which shall not exceed 20% (twenty percent) of the capital.

The legal reserve can only be built up in the year in which the balance of the reserve, plus the amount of capital reserves (referred to in § 1st of Article 182, of Law 6404/1976), exceeds 30% (thirty percent) of capital social.

Statutory Reserve (Investment Reserve and Working Capital)

Article 194, of Law 6404/1976, regulates the establishment of statutory reserves. According to that legal provision, the company's by-laws may establish reserves provided that, for each one: (i) indicates its aim in a precise and complete manner; (ii) establishes criteria to determine the annual portion of net income to be allocated to its constitution, and (iii) establishes the reserve maximum limit.

In line with the law and with the provisions of § 2, Article 36 of the Company's Bylaws, the balance of the adjusted net income, after deducting mandatory dividends, will be allocated to the Investment and Working Capital Reserve, whose goal is to ensure investments in fixed assets and increase of working capital, including amortization of the Company's debts and financing of subsidiaries and affiliates.

Dividends and interest on capital payable

As provided in article 202 of Law 6404/76, and subparagraph "b" of § 1 of Article 36 of the Company's Bylaws, shareholders are entitled to a compulsory dividend, each year, in the amount corresponding to 30% (thirty percent) of the adjusted income, as minimum mandatory dividend.

As deliberated by the Company's Board of Directors, the Company may: (i) declare dividends to the account of income recorded in the semi-annual balance sheet, as well as, as a result of shorter-period balance sheets, according to (in the latter case) the limit of Article 204, § 1 of Law 6404/1976, or declare interim dividends to the account of retained earnings, (ii) credit and pay interest on capital payable under the current legislation, and allocate them to the compulsory minimum dividends.

Interest on capital payable is calculated based on the shareholders' equity accounts, limited to the variation, pro rata day, of the Long Term Interest Rate (TJLP). The actual payment or credit shall be conditional upon the existence of earnings computed before the deduction of interest, or income reserves, in an amount equal to or greater than the value of twice the interest to be paid or credited.

The Bylaws do not provide regular payments of interest on capital payable to shareholders; however, in recent years, the Company has decided to distribute it, as calculated pursuant to current legislation and attributed (by the net amount of Withholding Income Tax) to dividends in the same fiscal period.

The interest on capital payable and dividends declared by the Company are not restated.

The proposed allocation of net income for 2011 is to distribute to shareholders a share of 35% (thirty-five percent) of the adjusted income, 5% (five percent) above the one foreseen in the Company's By-Laws.

The dividends will be declared on the date of the Annual General Meeting and payment will be made in full and by crediting the amount according to the account and bank address provided to Banco Itaú S.A, which is the depositary institution of the shares. The shares will be traded ex-dividend from the day following that of its declaration, and the payment date will be communicated through a Notice to Shareholders, published in the newspapers usually used by the Company and available on the World Wide Web.

In the following tables we demonstrate the remuneration to shareholders for fiscal 2011, to be ratified at the next Annual General Meeting, as well statements referring to the three (3) previous years, for comparison purposes:

Justification for Proposed Amendment of By-Laws

(Art. 11, II, CVM Ordinance no. 481/09)

Amendments to the Bylaws of the Company are being proposed due to the following reasons:

(i) Modification of Art. 17 and inclusion of Art. 18

The reform of the Listing Rules of Level 1 of Corporate Governance of BM& FBOVESPA, approved by CVM on March 21, 2011, requires the inclusion, in the company by-laws, of the determinations outlined in the proposed modification until the date of the opening of the general meeting which will approve the financial statements for 2011 financial year, which is now being observed.

(ii) Modification of Art. 19

Law 12.431/2011 has changed Art. 146 of Law 6.404/76, removing the requirement that directors should be shareholders of the Company. On the basis of this legal amendment, the Company has also resolved to suppress this determination from its By-Laws.

(iii) Modification of Art. 26

While amending its By-Laws on the grounds of item (i) above, the Board has also decided to amend Art. 26 to make the wording in such item clearer.

(iv) Legal and Economic Consequences

Under the legal aspect, the inclusion of paragraph 5, in Art. 17 of By-Laws, will result in the impossibility of accumulating the positions of President Director and Chairman of the Board of Directors by the same administrator. Modification of Art. 19 will allow non-shareholders to be members of the Company's management. The other changes do not affect substantially the Company, since the Company was already in compliance with the Listing Rules of Level 1, regardless of statutory device in this respect, and the wording of Art. 26 became clearer, without, however, changing its content.

Under the economic aspect, the proposed changes should not affect the Company in any sense.
