

PRESS RELEASE

Review in 2014 Indicators - *Guidance*

Even having anticipated some of the points that have impacted the first half of the year, the Company believes that the projections concerning its performance in fiscal 2014 no longer match the market deterioration, as described above, and should therefore be revised as follows:

Total Gross Revenue– R\$ 5.4 billion;

Consolidated Net Revenue–R\$ 4.0 billion;

Exports –US\$ 210 million;

Revenues from abroad– US\$ 90 million;

Imports –US\$ 85 million;

Investments –R\$ 150 million.

Such indicators are validated through the strategic plan of Randon and are supported by the assessment of the macroeconomic scenarios of Brazil and of the countries where the company does business, as well as of indicators from the sector and from the automotive industry, in addition to the behavior of the markets where the Company operates
